

Environmental Business Committee

ACEC STRATEGIC PLAN: The six strategic goals under the plan are:

1. Become recognized by all engineering companies in the United States as their legislative advocate for the promotion and protection of their business interests.
2. Become recognized by all engineering companies in the United States as their primary resource on business practices.
3. Become recognized by all stakeholders in the built environment as the national voice of the engineering industry.
4. Grow ACEC/PAC to a \$1 million-per-year PAC by 2010, while “capturing” the influence of our most politically active individual members.
5. Grow the Minuteman Fund to respond to critical state issues and federal appellate cases while maintaining a “war chest” of \$1 million.
6. Grow the number of member firms by 2% each year, grow the number of member firm employees by 3% each year, and recruit 90% of the eligible *ENR* “Top 500 Design Firms” as ACEC members by 2010.

PURPOSE:

The purpose of the Environmental Business Committee is to develop industry-wide consensus positions and national leadership on a wide range of issues important to environmental engineering firms; undertake a proactive legislative and regulatory advocacy program; develop public and private market programs of interest to the membership; and communicate with the ACEC membership on vital environmental issues that will affect their businesses.

2005-2006 GOALS:

1. Increase ACEC’s visibility on the Hill with regard to environmental issues.
2. Implement more contact and coordination with EPA’s Office of Water.
3. Continue to work towards introduction and passage of a water infrastructure trust fund bill and increased water appropriations.
4. Coordinate Committee legislative priorities (WRDA and WIN in Water Resources and BRAC issues) with ACEC’s Government Advocacy Committee.
5. Increase the Committee’s efforts relative to the development and passage of a WRDA bill.
6. Collaborate with other trade groups (WEF and AWWA), government associations and select not-for-profits to promote ACEC’s environmental agenda.

PROGRESS REPORTS:

The Committee shall make quarterly reports to the Chairman (copied to the President) on progress made in achieving Committee goals.
