

Federal Agencies and Procurement Advocacy Committee

ACEC STRATEGIC PLAN: The six strategic goals under the plan are:

1. Become recognized by all engineering companies in the United States as their legislative advocate for the promotion and protection of their business interests.
2. Become recognized by all engineering companies in the United States as their primary resource on business practices.
3. Become recognized by all stakeholders in the built environment as the national voice of the engineering industry.
4. Grow ACEC/PAC to a \$1 million-per-year PAC by 2010, while “capturing” the influence of our most politically active individual members.
5. Grow the Minuteman Fund to respond to critical state issues and federal appellate cases while maintaining a “war chest” of \$1 million.
6. Grow the number of member firms by 2% each year, grow the number of member firm employees by 3% each year, and recruit 90% of the eligible *ENR* “Top 500 Design Firms” as ACEC members by 2010.

PURPOSE:

The purpose of the Committee is to undertake advocacy efforts with Congress and federal agencies to promote the interests of ACEC members engaged in contracting with the federal government.

2005-2006 GOALS:

1. Increase promotion of ACEC’s business and legislative objectives with federal agencies.
2. Develop partnering agreements with federal agencies as may be appropriate to promote ACEC’s goals, including the Department of Homeland Security.
3. Begin a dialog with the SBA on small business issues.
4. Provide guidance including suggested agenda and speakers for the annual ACEC convention in Washington, DC and for the Market Forecast Series.
5. Review and comment on federal regulations, procedures and documents affecting design and construction, including FAR-related issues of concern to the industry.
6. Continue to support the President’s competitive sourcing initiative.
7. Fight unfair government competition from federal agencies.
8. Implement a QBS education program for the federal acquisition workforce.
9. Resolve the improper application of A/E contracting on GSA’s MAS through the creation of a QBS compliant schedule for A/E services.

10. Advance design-build reform at the federal agencies through the passage of a pilot project authorizing the selection of design-build teams based on qualifications.
11. Promote the use of QBS and VBDS in the federal agencies.

PROGRESS REPORTS:

The Committee shall make quarterly reports to the Chairman (copied to the President) on progress made in achieving Committee goals.

Federal Agencies & Procurement Advocacy Committee

David J. Greenwood
Chairman
Michael Baker Jr., Inc.
3601 Eisenhower Ave Ste 600
Alexandria, VA 22304-6459
