

Transportation Committee

ACEC STRATEGIC PLAN: The six strategic goals under the plan are:

1. Become recognized by all engineering companies in the United States as their legislative advocate for the promotion and protection of their business interests.
2. Become recognized by all engineering companies in the United States as their primary resource on business practices.
3. Become recognized by all stakeholders in the built environment as the national voice of the engineering industry.
4. Grow ACEC/PAC to a \$1 million-per-year PAC by 2010, while “capturing” the influence of our most politically active individual members.
5. Grow the Minuteman Fund to respond to critical state issues and federal appellate cases while maintaining a “war chest” of \$1 million.
6. Grow the number of member firms by 2% each year, grow the number of member firm employees by 3% each year, and recruit 90% of the eligible *ENR* “Top 500 Design Firms” as ACEC members by 2010.

PURPOSE:

The Transportation Committee monitors legislation and regulation on transportation infrastructure issues, including highways, railroads, aviation, and mass transit; and develops and recommends Council positions and legislation/regulation for promotion before Congress, the Executive and State agencies.

2005-2006 GOALS:

1. Advance ACEC’s priorities in the effort to reauthorize TEA-21.
2. Defeat efforts to restrict outsourcing by state DOTs and promote outsourcing provisions in TEA-21 reauthorization.
3. Urge the inclusion of environmental streamlining provision in the next surface transportation bill.
4. In reauthorization proposals, advance favorable procurement provisions that 1) assert compliance with QBS principles; and 2) fee determinations made without arbitrary salary and overhead caps.
5. Develop a model error/omissions and cost recovery procedure for use in responding to the US DOT IG audit and by our state chapters when needed.
6. Develop a succession plan for the Steering Committee.
7. Expand ACEC alliances to include other organizations such as ARTBA, ACI, etc.
8. Continue coordination efforts with AASHTO and FHWA on improvement of environmental documents.

PROGRESS REPORTS:

The Committee shall make quarterly reports to the Chairman (copied to the President) on progress made in achieving Committee goals.
