Why Join ACEC New Mexico?

Government Advocacy

Proactive lobbying, agency liaison committees, and a strong PAC ensure engineering firms have a voice in legislation and procurement.

Networking & Business Development

Monthly meetings and events connect you with decision-makers, partners, and future clients across New Mexico.

Professional Development

APP and PDP build leadership pipelines and provide PDHs through seminars, workshops, and Legislative Day at the Capitol.

Recognition & Visibility

EEA showcases distinguished projects and elevates your firm's brand at state and national levels.

Business Savings

Access ACEC's Business Insurance, Life/Health, and Retirement Trusts for cost-effective, competitive benefits.

Community Impact

Promote public awareness of engineering and demonstrate leadership through community initiatives.

Benefits of Membership

Networking/Marketing

Expand Your Presence in the Engineering Community

Meetings and social functions are held with peers to discuss common business interests and partnering opportunities, as well as current trends and problem solving in engineering and management. You can capitalize on hassle-free contacts with quality businesses by utilizing ACEC New Mexico Member Firms and Associate and Affiliate Members. ACEC New Mexico offers you the opportunity to interface with engineers and surveyors, architects, contractors, homebuilders, public works officials, elected officials, private clients, and more.

Liaison Committees

Build Ties with Public Agencies

ACEC New Mexico has ongoing, established relationships with local, state, and federal agencies. Meetings are held with key government entities to discuss upcoming projects and current issues, as well as to promote common interests and the use of ACEC New Mexico Members. Agencies include: Albuquerque Bernalillo County Water Utility Authority, Bernalillo County, City of Albuquerque, City of Rio Rancho, Local Governments, New Mexico Department of Transportation, Office of the State Engineer, Southern New Mexico, Tribal Affairs, and US Army Corps of Engineers.

Government Advocacy

A Voice in Local, State, and National Issues

ACEC New Mexico's well-established, effective lobbying team maintains an active and influential presence at the State Capitol, screens bills for impact on the engineering community, and testifies at legislative hearings on key engineering and industry issues. ACEC New Mexico sponsors priority legislation in the areas of qualifications-based selection (QBS), alternative project delivery methods, indemnification, malpractice, prompt pay, certificate of merit, and others. ACEC New Mexico has an informed political action committee and an aggressive candidate support system and diligently addresses industry legal and contractual concerns in a timely manner.

Professional Development

Affordable Continuing Education

The Multiple seminars and workshops provide top-notch, low cost education on a variety of beneficial topics. Professional development hours (PDHs) are provided for licensed professionals. ACEC New Mexico offers an Aspiring Principals Program (APP) and a Professional Development Program (PDP).

Benefits of Membership (Cont'd)

Community Outreach

Understanding and Recognition

ACEC New Mexico circulates information promoting the professional responsibilities and services of consulting engineers. Private practice engineering is conveyed to the public with the aim of developing understanding and appreciation for the value provided by consulting engineers.

Engineering Excellence Awards (EEA)

Acknowledge Accomplishments

ACEC New Mexico's Annual Awards Program, the Engineering Excellence Awards (EEA), is designed to recognize excellence in engineering. It provides firms the opportunity to showcase outstanding projects to the public and market their distinguished projects and their firms at both the state and national levels.

American Council of Engineering Companies

National Partner

ACEC assists ACEC New Mexico Members by providing a variety of member benefits, including federal legislation to sensitize legislators to consulting engineers' concerns, to work to decrease governmental regulation, to attempt to eliminate unfair competition, and to create new business for your firm. In addition, numerous opportunities exist to serve on national committees. ACEC can help in every aspect of your business. Call ACEC at 202.347.7474 or refer to their website at www.acec.org.

Firm Management Benefits

Ways for Your Business to Save

ACEC Trust Programs

ACEC's Trust Programs are designed to enhance your membership investment by helping to control your firm's costs. Programs are available for business insurance, life/health insurance, and retirement plans. The ACEC Trusts have created partnerships with reputable administrators and plan providers that offer valuable services with quality and competitive prices. In addition to providing business savings, these programs make an attractive employee retention program in which individual employees benefit from your ACEC purchasing power. In order for an engineering firm to take advantage of these excellent business opportunities, you must become a Member Firm.

ACEC Trust Programs

ACEC Business Insurance Trust

The ACEC Business Insurance Trust (BIT) oversees a program that provides business and professional liability insurance coverage for participating ACEC Member Firms. The program offers policyholders ACEC-exclusive tailored coverage, along with broad policy terms and conditions.

Program coverage includes automobile liability and physical damage; workers' compensation; and the "Spectrum" package policy affording protection for buildings, business personal property, money and securities, business liability, equipment breakdown, drones, cyber security, computers and media. Catastrophe liability protection is available through umbrella coverage.

The business insurance plan underwriter is The Hartford. The plan administrator is Greyling, a division of EPIC.

ACEC Trust Programs

ACEC Retirement Trust

The ACEC Retirement Trust allows any size firm to have enormous buying power. The ACEC Retirement Trust was originally formed in 1973 for the purpose of combining the assets of multiple unaffiliated firms to provide:

- Greater fiduciary protection for individual retirements plans
- Cost effective administration and recordkeeping
- Quality, low-cost investments typically unavailable to individual firms
- Innovative participant education resources
- More frequent and detailed review and reporting without tying up your internal resources

A valuable benefit program to attract and retain talent. Harness the right expertise while you stay focused on engineering. Leverage economies of scale. Reduce fiduciary risk. Gain a competitive advantage with a best-in-class retirement plan you can't get from any source but the ACEC Retirement Trust.
